

Symposium: Energy Efficiency in the EU from 2020 to 2030

Learnings from EU2020 Framework and
Implications for 2030 Energy Targets

Brussels, 09/30/2014

DENEFF

DEUTSCHE

UNTERNEHMENSINITIATIVE

ENERGIEEFFIZIENZ

Initiative:

> 100 companies selling energy saving solutions

> 20 reknown experts in the field of EE

Mission:

Unlock tremendous energy savings potential

Principles:

Cross-industry, technology neutral, highly credible

Approach:

Strong voice for good EE policy framework

Lessons Learned from EU 2020 Framework.

- 2007 the 20/20/20-Framework was decided
- EE was the only non-binding target
- It was not taken seriously until Commission issued the EED (2012)
- Only 5 years left to achieve the target
- Useless for investment planning of EE businesses

Binding

Ambitious
